

Gerald Ejercito Fulgosino

Objective

I'm looking for a job that will enhance my professional development in information technology as well as my technical writing capabilities.

My openness to learning, willingness to accept mentorship, adaptability, desire of learning new things, and time management are some of my strong points. I want to work in a position that best utilizes my qualifications, and I want to further my career development in communication abilities, which could have a significant impact on my personal and professional development.
